Standard software for UT computers

This list contains software, that is installed on all computers at the University of Tartu, unless specified otherwise.

Optional software can be installed from Software Center.

If the software required is not on the list, the installation needs to be requested from the University of Tartu Helpdesk.

- Microsoft Office with spellers
- Zoom
- Teams
- Festart dictionary
- ID-card software
- VPN (only laptops)
- Firefox
- Google Chrome
- Adobe Reader DC
- Skype

All other software is updated when it is deemed necessary.
