Installing optional software

Users can install selected software to University computers by themselves through Software Center.

Available software are:

- Global Protect VPN
- VLC Media Player
- InfranView
- 7-Zip
- Notepad++
- PuTTY
- Panopto Recorder
- Zotero
- JASP
- Mendeley Reference Manager
- RStudio
- R

1. In order to open the Software Center, you can use the Start menu or search:
   a. Using the Start menu:
      i. Click the Start menu icon in the bottom-left side of your screen.

Eestikeelse juhendi leiad siit: Valikulise tarkvara paigaldamine.
ii. Type **Software Center** and open the application by clicking on the **Software Center icon**.

![Software Center search and open application]

b. Using Search:
   i. Type **Software Center** into the search bar on the bottom-left of your screen.

   ![Software Center search]

   ii. Open the application by clicking the **Software Center icon**.
2. On the home page of the application, select the software you want to install. 
   As an example, we will install Notepad ++.
3. By selecting the application that you want to install, the application page opens. Press Install.

4. The installation of the application will begin.
5. Once the software is installed, you can find it through the search.

1. Open the **Software Center** application.
2. Select the application you would like to uninstall. 
   *As an example, let's uninstall Notepad++.*
3. Click **Uninstall**.
