

Aines on saadud positiivne tulemus - Positive result received for the course

Aines on saadud positiivne tulemus

i Kui aine on sooritatud positiivsele tulemusele, siis samal õppekohal sellele ainele uuesti registreeruda ei saa. Positiivse sooritusena läheb arvesse ka see, kui see aine on asendatud **VÕTA**ga.

Aintele registreerumisel ei ole sellise aine ees aktiivset märkeruutu ja aine juures on tekst: **Positiivne tulemus olemas** (vt joonis).

The screenshot shows a table of courses. A tooltip is visible over the first row, stating: "Teil on selles aines juba positiivne tulemus. Registreerumine ei ole võimalik." The table row contains the following information: course ID "LOFY.02.008", title "Sissejuhatus materjalteadusse", status "PÕ, EST", volume "3 EAP", lecturer "S. K...", and registered persons "15 / 40". Below the table are two buttons: "Lisa planeerijasse" and "Registreeru valitud ainele".

Kood	Nimetus	Info	Mah	Vastutav(ad) õppejõud	Reg. isikud
LOFY.02.008	Sissejuhatus materjalteadusse	PÕ, EST	3 EAP	S. K...	15 / 40

i Kui aine on eelmisel õppekohal (olete sellelt juba eksmatrikuleeritud) sooritatud positiivsele tulemusele, siis hetkel kehtival õppekohal (v.a. reimmatrikuleeritud) on võimalik sellele ainele uuesti registreeruda.

Positive result received for the course

i If you have received a positive result for the course, you cannot register for the same course again at the same student place. If the course has been accredited by RPL, this is also considered a positive result.

At [registration for courses](#), there is no active checkbox in front of the course, and the text is displayed: **You already have a positive result for the course** (see Figure).

The screenshot shows a table of courses. A tooltip is visible over the first row, stating: "You already have a positive result from the course. Registration is not possible." The table row contains the following information: course ID "ARAN.01.039", title "Anatomy", status "REGULAR, EST", volume "11 ECTS", lecturer "S. K...", and registered persons "0". Below the table are two buttons: "Add to planner" and "Register for selected courses".

Kood	Nimetus	Info	Volume	Lecturer(s) in charge	Reg. Persons
ARAN.01.039	Anatomy	REGULAR, EST	11 ECTS	S. K...	0

If you have received a positive result for the course at your previous student place (you have already been deleted from its matriculation register), you cannot register for the same course again at your current student place (excluding rematriculated students).
