

# OpenVPN - Android

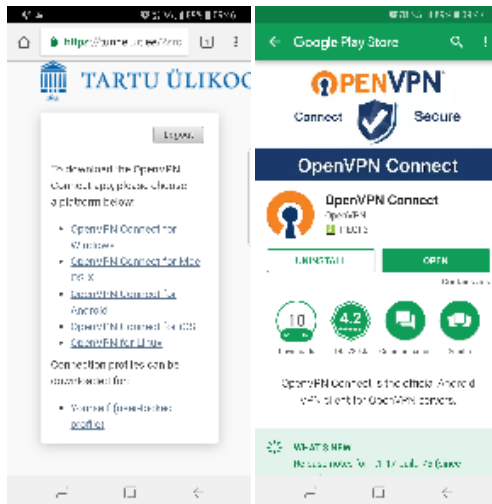

Käesolev juhend on koostatud kasutades Samsung Galaxy S8 telefoni Android versiooniga 7.0.

**Klõpsa piltidel, et näha neid suuremana!**

1. Ava telefonis aadress <https://tunnel.ut.ee> ja logi sisse oma ülikooli kasutajatunnuse ja parooliga.

2. Vajuta lingile **Open VPN for Android** ja paigalda Play poest **OpenVPN Connect** rakendus.

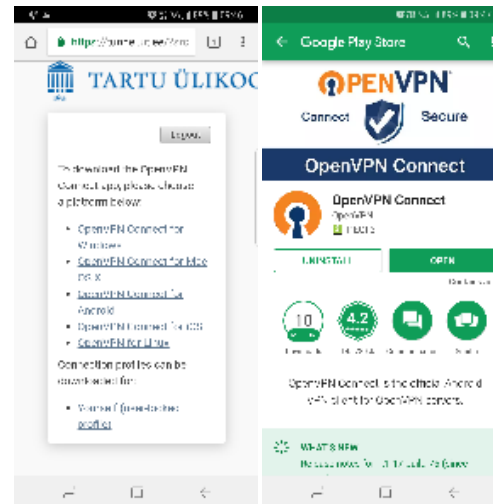

These instructions are made using a Samsung Galaxy S8 running Android 7.0.

**Click on the images to see a larger version!**

1. Go to <https://tunnel.ut.ee> and log in using your university credentials.

2. Click on the link **Open VPN for Android** and install the **OpenVPN Connect** app from the Play Store.

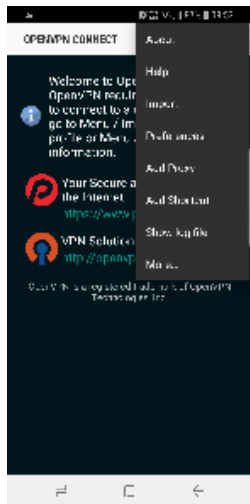

3. Mine tagasi aadressile <https://tunnel.ut.ee> ja vajadusel logi uuesti sisse. Lae alla oma kontoga seotud profiil kasutades linki **Yourself (user-locked profile)**.

4. Ava oma seadmes rakendus **OpenVPN Connect**. Vajuta üleval paremal nurgas kolme täpiga märgistatud menüüupule.

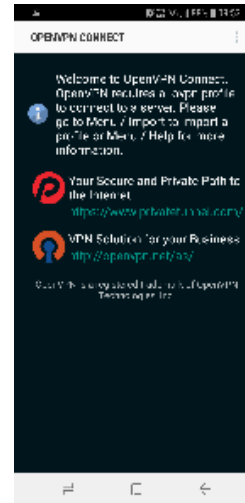

5. Vajuta valikul **Import**.

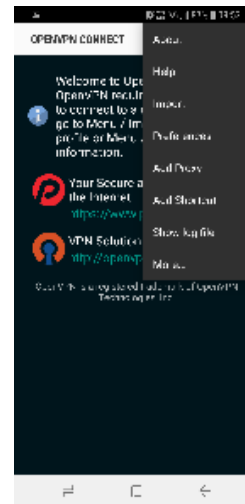

6. Vajuta valikul **Import Profile from SD card**.

3. Go back to <https://tunnel.ut.ee> and log in again if necessary. Download a personal connection profile using the link **Yourself (user-locked profile)**.

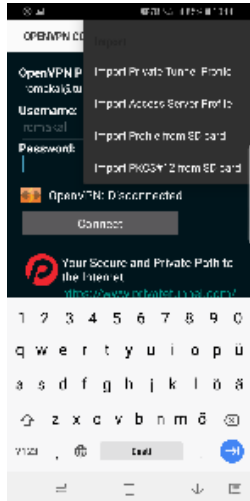

4. Run the **OpenVPN Connect** application on your device. Tap on the three dots in the upper-right corner of the application.

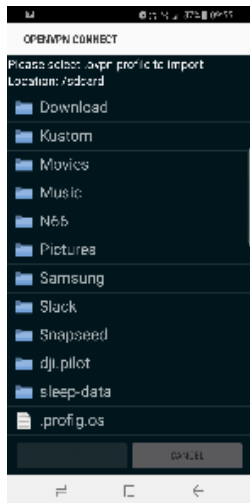

5. Tap **Import**.

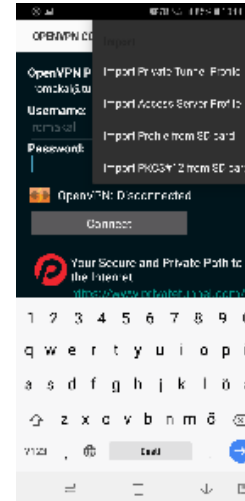

6. Tap **Import Profile from SD card**.

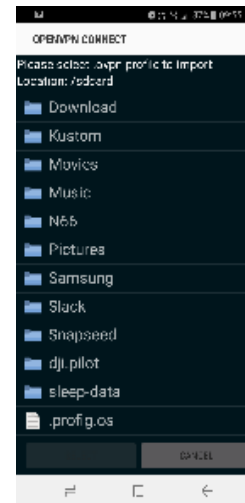

7. Otsi nimekirjast kaust nimega **Download** ja klõpsa sellele.

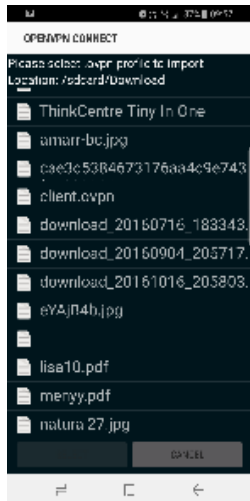

8. Leia allalaetud failide hulgast **client.ovpn** nimeline fail ja klõpsa sellele ning vajuta ekraani all osas nupule **Select**.

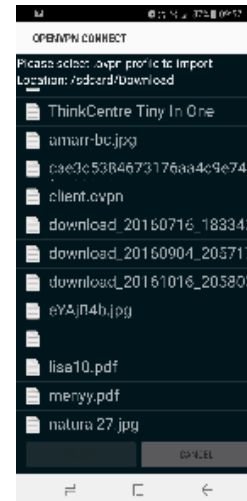

7. Find a folder called **Download** and tap on it.

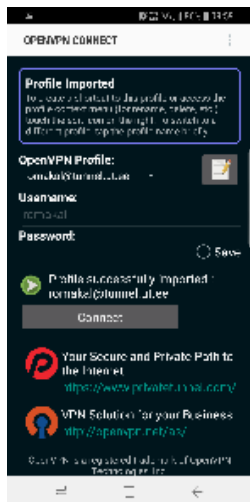

8. Find a file called **client.ovpn** from your Download folder. Tap on it and then tap on the button **Select** on the bottom of the screen.

9. Sisesta oma kontoga seotud parooli vastavasse lahtrisse. Kui soovid, et parool salvestatakse, märgi linnuke lahtri järel olevale **Save** valikule.

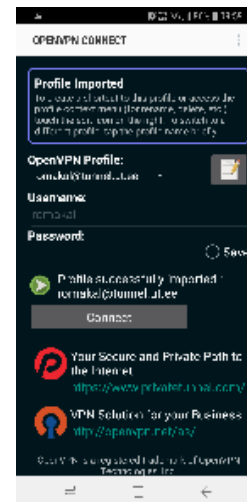

9. Enter the password for your university's account. If you want the application to save it, check the **Save** option.

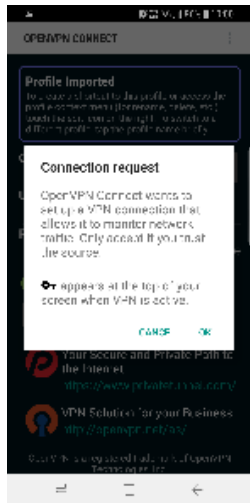

10. Vajuta nupule **Connect**, et luua ühendus.

11. Connection request aknas vajuta **OK**.

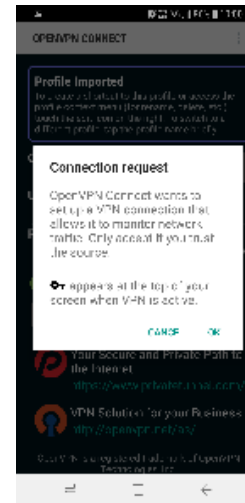

10. Tap **Connect** to establish the connection.

11. In the Connection request window, click **OK**.

12. Ühenduse katkestamiseks ava **OpenVPN Connect** rakendus uuesti ja vajuta nupule **Disconnect**.

12. To disconnect, open the **OpenVPN Connect** application and tap the **Disconnect** button.
